

Winter 2009

Vol 3:1

"Improving dogs' lives by positively changing dog-owner relationships through balanced training."

Kinaesthetics™ Clinic in October

Dogs are creatures of movement. Their language, social structure, ability to concentrate and learn, and sense of well being, all flow from their ability or inability to move. Any restriction in a body part has far reaching consequences in the world of dog. For example, your dog's stiff hindquarters and tail might flag aggression to another dog when there was no intent of aggression at all. Similarly, a stiff neck or restricted movement in the head would prevent a dog from signaling normal calming signals or other pieces of communication. Athletic injuries can restrict movements or lead to a reluctance to perform.

All these things can be changed dramatically with the simple Canine Kinaesthetics™ techniques.

Canine Kinaesthetics™ is a comprehensive hands-on system of touch designed to find and relieve areas of restricted movement and/or discomfort in our dogs.

Maryna Ozuna, founder of Canine Kinaesthetics system will present a 3 Day Kinaesthetics Clinic here at Canine Coach October 9-11th.

If you'd like to improve your dog's overall well-being & quality of life and strengthen the bond you have with him/her, contact us.

Open the door to an incredible experience. You'll never look at your dog the same way again.

Ky shakes hand with Jake, one of his "Book Buddies".

Book Buddies

On February 26th, Ky completed his 50th school visit (on his 10th birthday).

Since becoming Delta Pet Therapy Pet Partners, Ky & Sharon have been going to Northwoods Community Secondary School where students read to Ky to improve their reading skills. This year Ky hears from several different students. He lends a non-judgmental ear while they practice reading aloud. Just his presence lowers their blood pressure (as any pet owner knows!), making it easier to concentrate on reading, building confidence and vocabulary.

If this program interests you, please contact us about how you may become involved.

Newsletter format change

Look for our newsletters to be on-line in a downloadable format.

Coming soon.

Congrats Grads!

Congrats to the most recent graduates of the January Basic Obedience Leash & Collar Class. Remember, learning is life-long. Keep up the good work.
It was quite enjoyable to see everyone improve.

Graduates of the January's Basic Obedience Leash & Collar Class

Tricks Class Fun!

Ike enjoys learning a "hold the biscuit" trick in Tricks Class. This class was perfect to get the dogs out for some fun in the middle of winter. It was a lot of fun for the people, too!

Upcoming Events

CGC-Therapy Dog Prep Class

Mondays, 6:30-7:30 p.m., Mar 2nd - Mar 16th

This 3 week class is part lecture and part hands-on. You will learn differences between therapy dogs and service dogs, requirements of Canine Good Citizenship, Delta Pet Partners tests and how to get your dog (and yourself) prepared for the tests
